

Welding

Central Tech's evening welding program is designed around the "Learn to Earn" training concept. Topics covered include safety, welding symbols, and major welding processes including: Stick-Rod, MIG, Flux Core, TIG, and Pipe Welding.

Students can enroll for the full 320-hour course or take Phase 1 at 100 hours and then Phase 2 at 100 hours. The curriculum is adjustable to fit your skill level from 100 hours at any skill level to the full 320-hour course. In the 100-hour phases, after Phase 1 is complete, if the student wants to learn more skills, they can enroll in the next phase. Students must provide their own personal protective equipment. New classes start monthly. Call for a start date.

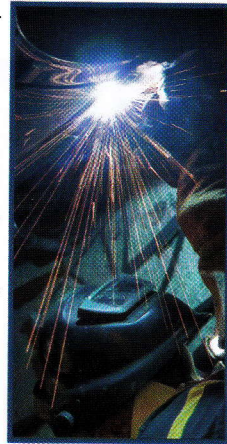

Ask about the CHOICES Scholarship.

Welding Phases 1 & 2 (100 hours each phase)

Drum	1st day of each month	100	M-Th	4:00-9:30p	\$220
Sap	2nd Monday/monthly	100	M-Th	5:00-8:30p	

Welding Full 320-hours

Drum	1st day of each month	320	M-Th	4:00-9:30p	\$660
Sap	2nd Monday/monthly	320	M-Th	5:00-8:30p	

Real Estate

Basic Real Estate

Upon completion of the Basic Real Estate course and successfully passing the Oklahoma Real Estate Sales Associate exam, candidates are issued a provisional license. The provisional license is valid for one (1) year during which time the real estate associate must complete 45 hours of approved post licensing training. Licensure is conducted by the Oklahoma Real Estate Commission.

Personal Interest

Blacksmithing Basic *

The village blacksmith was once the most respected profession of the community. Today the craft of the blacksmith has been lost to factories of mass production. In the Blacksmithing Basic class, you will be introduced to the tools of the trade and learn how to use a propane forge to rework (forged) iron into new and exciting shapes. You will learn how to make a rectangle round, hot cut, hole punch, and do heat treating. You will also be taught the skills needed to create letter openers, grill forks, scrolls, wall hooks, towel rings, and candle holders.

*Classes are held at CG Forge.

Sap	9/06 - 10/13	36	TTh	6:00-9:00p	
-----	--------------	----	-----	------------	--

Blacksmithing Advanced *

This class is a continuation of the Blacksmithing Basic course and is an excellent way to take your smithing skills to the next level. You will learn advanced hand-forged methods such as mortise and tenon joints, rivets, and hot collars. You will then use all of your blacksmithing skills from both classes to create a final project.

*Classes are held at CG Forge.

Sap	11/01-12/13	36	TTh	6:00-9:00p

Cake Decorating

Learn the secrets of professional cake decorating! Learn how to prepare ceilings, mold flowers, create borders, make cookie bouquets, and specialty toppings on single-layered cakes.

Sap	9/12-11/14	30	M	6:00p-9:00p	
-----	------------	----	---	-------------	--

Cake Decorating Advanced

This course covers advanced cake decorating techniques such as basket weave, string work, garlands, and more modern patterns.

Sap	11/14-12/19	18	M	6:00p - 9:00p	
-----	-------------	----	---	---------------	--

ATTENTION Classes of 2015 & 2016

High School graduates of the 2015 or 2016 school year from a school within the Central Tech district qualify for the **CHOICES Scholarship**, offering a tuition waiver that pays up to \$1575 toward a full-time class, evening welding, or emergency medical technician.

*Restrictions may apply. Call for details.

Powersports Technology

Motorcycle Maintenance

Central Tech's Motorcycle Maintenance class is designed to provide you with the skills that will allow you to keep your motorcycles in top running condition. In this class you will learn how to change oil, inspect and adjust cables, maintain chain and shaft drive systems, air filter replacement/cleaning, fuel system care, basic electrical system troubleshooting, brakes inspection and replacement, clutch and drive system inspection, suspension inspection and adjustment, 4-stroke engine theory, and the purpose of valves and why they need adjustments. You are encouraged to bring your own motorcycle. The course is flexible. You can choose new skills and topics of interest.
