

Welcome to Central Tech

career
tech
Central Tech, a member of
Oklahoma's CareerTech system.

Central Tech's short-term, or Adult Career Development (ACD), classes are offered to individuals seeking to enhance career skills, earn industry-recognized certifications, continue professional education, or explore personal interests. Some classes may be taken in sequence to build a career path. The majority of ACD classes can be completed in eight weeks or less and are now offered during the weekdays, evenings and occasionally on weekends to meet your busy lifestyle. Our employees are here to serve you, and our students appreciate Central Tech's low cost, close to home, inviting atmosphere. If you're ready for a great experience, call us today. Enroll no later than 3 weeks prior to start date.
